

# Speech Pathologists: Swallow Studies in DICOM!

**Still using low-quality video tape or DVD-video?  
Upgrade to DICOM, higher quality, & instant access!**

## **TIMS 2000 SP benefits for speech pathology!**

**Record the entire procedure:**

TIMS can record the entire swallow study and have it available for immediate review.

**High resolution:**

TIMS can record at high resolution (1024 x 1024) for superior image quality. No longer do you have to sacrifice image quality for convenience. TIMS provides both and more.

**Synced audio:**

Record and review synced audio with high resolution video.

**Instant access:**

TIMS provides instant access to your studies. There is no rewinding or fast-forwarding the tape or DVD. Just click and you are there – immediately.

**Viewer and timer:**

TIMS provides a free DICOM Viewer with a stopwatch timer in the 100s of a second for timing swallow events.

**Record to CD/DVD:**

TIMS records your speech pathology studies on CD/DVD or USB memory sticks with our DICOM Viewer for immediate review on your own computer.

**DICOM format:**

All studies are in the medical industry-standard DICOM format.

**DICOM send:**

TIMS can send the studies or even portions of the studies to PACS so that you can have a permanent archive on PACS.

**Editing:**

TIMS allows simple and easy editing of studies.

**Cost-effective:**

TIMS is inexpensive allowing for affordability in even the smallest of budgets.
